

A GREY DEEP NOVEL · BOOK ONE

THE FRACTURING

Grimdark Epic Fantasy

Something ancient is caged beneath the Grey Deep, and it wants out. Three kingdoms on the brink. Three people learning what it costs to refuse to die. **No chosen ones. No destiny. No one coming to save the world** — and a reckoning coming that none of them are ready for.

For readers of George R.R. Martin and Joe Abercrombie.

Something vast is stirring beneath the Grey Deep — older than the kingdoms built on its shores, and not at all what anyone believes it to be. Three fractured lives are pulled toward a reckoning none of them chose, each one certain of what's coming for them. None of them are right.

"I want a book to make me feel something. The Fracturing quite successfully satisfied this requirement of mine."

— J. Alex Giguere, author of *Breaking*, SPFBIO XI Judge

"Hockett's prose is punchy and quick and his sentences cut like a knife... Three grimdark phoenixes rise from the ashes of their lives."

— Benjamin Barreth, author of *No More Levels*, SPFBIO Semi-Finalist

"If you love series by George R.R. Martin or Brandon Sanderson, you will love J.C. Hockett's style of writing and world building."
